Resolution No. 2023-24-24

ADOPTING THE BUDGET

BE IT RESOLVED that the Board of Commissioners of the Port of Hood River hereby adopts the budget for fiscal year 2024-25 in the total of **\$51,217,850** now on file at the Port office, 1000 E Port Marina Drive, Hood River Oregon.

MAKING APPROPRIATIONS

BE IT RESOLVED that the amounts for the fiscal year beginning July 1, 2024, and for the purposes as shown in Exhibit A are hereby appropriated.

IMPOSING THE TAX

BE IT RESOLVED that the Board of Commissioners of the Port of Hood River hereby imposes the taxes provided for in the adopted budget:

(1) at the rate of \$.0332 per \$1000 of assessed value for operations and that these taxes are hereby imposed and categorized for tax year 2024-25 upon the assessed value of all taxable property within the district as follows:

CATEGORIZING THE TAX

General Government Limitation

General Fund......\$.0332/\$1000

The above resolution statements were approved and declared adopted on this 11th day of June 2024.

Re: **Budget Message for Fiscal Year 2024-25**

INTRODUCTION

As budget officer, it is my responsibility to prepare the proposed budget, post the necessary notices, hold the committee meeting and budget hearing, and deliver the budget message. There are, however, several people who have helped me develop this budget include Debbie Smith-Wagar, Finance Director; Jana Scoggins, Finance Manager; Ryan Klapprich, Facilities Manager; and Daryl Stafford, Waterfront & Marina Manager. Working with the Port Commission and Budget Committee, staff has incorporated feedback into this budget.

The Port of Hood River is a Municipal Corporation in the State of Oregon and operates in accordance with ORS 777 (Principal Act) and other statutes. As such it is required to prepare a budget annually for review and approval by the Budget Committee and for subsequent adoption by the Port Commission. This Budget Message is required by ORS 294.403 and is intended to provide a management summary of the issues facing the Port, an overview of the FY 2024-25 Proposed Budget and other information.

The budget is the Port's financial plan. The proposed budget figures are based on the best estimate of what the Port will receive (resources) and what the Port will spend (requirements) from July 1, 2024 to June 30, 2025. To prepare this estimate, we use past budget years' financial history to estimate future income and schedule our expenditures to balance with expected revenue.

The taxpayers of the district provide financial support to the Port District at the permanent rate of 3.32-cents per \$1,000 of Assessed Value (AV). In Hood River County, the AV is approximately 42% of Real Market Value (RMV). A home in the port district with an with a real market value (RMV) of \$515,000 is taxed approximately \$7 this year for services $(\$515,000 \times .42 / \$1,000 \times \$0.032 = \$6.92)$. A RMV of \\$515,000 is roughly a Zillow Home Value of \$625,000. This generates about \$105,000 total to the agency.

Much of the basis for this budget comes from the Port's Strategic Business Plan and Capital Facilities List adopted in 2021. In addition, the Port Commission conducted a Fall Planning Session on November 14, 2023 and a Spring Budget Planning Session on April 9, 2024 to review capital projects and programming in preparation for this budget.

THEMES FROM PLANNING SESSIONS

- 1. Consensus that the Port should exist after new bridge is operational.
- 2. The Hood River Waterfront is the most publicly used Port asset; generate new net income to maintain the highest levels of service and quality possible.

- 3. Preparing departments/asset centers for independence from toll revenues by July 1, 2026
- 4. Prepare for new bridge construction which will start October 1, 2025. Administration/Operations relocation is a high priority.
- 5. Port initiatives should focus on projects that generate positive net income to make up loss of tolls.
- 6. Keep and lease current port-owned property to generate revenue. If a port-owned property is sold, proceeds should be used to generate additional net income and not to cover operational costs.
- 7. Minimize the wear and tear on the existing bridge until the new bridge is open in Fall 2029.

This fiscal year's budget will reflect these themes/goals throughout.

This year's budget has significant changes compared to past years. The Commission has directed staff to reconfigure the Port's finances to be more transparent, especially in regards to tolls. In addition, the Commission approved implementing new financial software which will provide more regular reports to management, the Commission, and the Public. These new changes will start July 1, 2024.

In prior years the Port used the following five funds: General Fund, Revenue Fund, Bridge Repair Fund, Bridge Replacement Fund, and the Bi-State Bridge Reserve Fund. This year's budget follows through on the new fund organization acknowledged by the Commission at their Fall 2023 Planning Session. The funds in this year's budget are the Administration Fund, General Fund, Bridge Fund, Bridge Replacement Fund, and Bi-State Bridge Fund.

ADMINISTRATION FUND

The Port's new Administration Fund is an Internal Service Fund (ISF). ISFs allow governmental agencies to show overhead departments in their entirety, and then allocate those overhead costs to the asset centers (e.g. funds or departments) that use those services. This allows for greater transparency, and it allows those in charge of overhead departments to manage their budgets.

Prior to the Administration Fund, the Port allocated overhead areas directly to cost/profit centers. Most employees at the Port provide services to multiple areas, so wages/salaries and benefits were allocated directly to wages/salaries in the cost/profit centers. That left the rest of their departments (professional services, office supplies, etc.) in various parts of the budget as unallocated expenses. Those unallocated expenses were either left in the old Revenue Fund and were paid for by areas that made a "profit" (e.g. the Bridge or Industrial Properties), or they were recorded in the old General Fund and covered by an automatic transfer from the Revenue Fund to the General Fund (again, coming from areas that made a "profit"). This method is not transparent and is not helpful in analyzing the true cost of cost/profit centers.

One of the challenges when including an ISF in a budget is that it "doubles up" those costs within the budget. The direct costs of the departments are in the fund itself, and then the various cost/profit centers record the amounts they are charged to repay the ISF. One easy way to eliminate that doubling up of expenses is to remove the ISF from the budget as a whole. This is the approach that is taken at the end of the year when governments are required to report "government-wide" financial statements in their annual financial reports. References to full time equivalent (FTEs) in each department or fund take into account both direct and overhead FTEs. To avoid duplication, this message does not show the FTEs located in the Administration Fund.

The Administration Fund reports the following departments and the responsible position:

- 1. Executive/Contracting Executive Director
- Communications/Information Technology (IT) Executive Assistant and Finance Director
- 3. Finance/Accounting/General Office Finance Director
- 4. Human Resources/Payroll Finance Director
- 5. Insurance/Risk/Safety Finance Director
- 6. Maintenance Facilities Manager

Allocations have used historical information, which is not perfect data. The Port has a payroll allocation spreadsheet that has been updated over the years where employees estimate the amount of time they spend working on various cost/profit centers. The Port now tracks employees' daily time so better, more reliable data will be generated in the coming months. An insurance spreadsheet allocates a portion to each department based on property values along with some adjustments for areas have a lower risk of property damage, but a higher risk of liability (e.g. the Event Site). These splits will be refined with time.

The Administration Fund also receives revenue from the Hood River White Salmon Bridge Authority (HRWSBA) via grant reimbursements (\$55k) for the portion of staff time working on the bridge replacement effort. The March 2024 Intergovernmental Agreement (IGA) between the Port and Bridge Authority states that the Port will provide administrative support to the HRWSBA as long as it serves the project. The Port's Executive Director and Finance Director serve as the HRWSBA's Interim Executive Director and Interim Finance Director until the Authority chooses to hire different management. For all intents and purposes, the Replacement Bridge Management Contractor (RBMC) serves as the Bridge Authority's consulting staff for most replacement activities.

GENERAL OPERATING FUND (15.52 FTES)

The General Fund serves as the operational fund for most of the Port's asset centers. This includes revenues from property tax receipts, interest, leases, airport activities, moorage/marina activities, event site passes, and parking fees. All Port operational income – aside from bridge revenue – is collected in the General Fund (GF).

In addition, the Port has traditionally used the first 50-cents of bridge tolls for non-bridge related activities when there has been remaining tolls after bridge operations, maintenance, and repairs. Inflation and the increasing repairs to the old bridge have reduced the amount available for non-bridge related use. This new budget – for the first time -- shows that transfer into the General Fund from the Bridge Fund. As noted earlier this transfer will cease July 1, 2026.

The General Fund includes six departments including Industrial Property, Commercial Buildings, Airport, Marina Basin, Waterfront Recreation, and Parking.

INDUSTRIAL PROPERTY DEPARTMENT

All revenue and expenses related to the Big 7, Halyard, Jensen, Maritime, Timber Incubator, Wasco, Lot 1 and Lower Hanel Mill properties are included in this department. The Commission approved a contract in March of this year to sell the Big 7 building. The initial list price was \$4M and those proceeds are shown as a reserve line at the bottom of the General Fund. Use of these funds have yet to be determined but should be used for developing new streams of income. Revenue and expenses shown for the Big 7 are for a full year. A \$20k placeholder is budgeted for any seller improvements. The Jensen Building is

showing a \$200k roof replacement. The other buildings have smaller capital placeholders. Lot 1 continues to see big losses driven by a large capital effort (\$1.1M) to re-design the intersection at No. Second and Riverside. The Commission has set a priority of building a roundabout at the intersection removing barriers to future development which will increase the value of Lot 1 upon completion. The Port is showing grant revenue of \$1M toward the effort. Finally, an effort is underway to develop storage units at Hanel Lower Mill after plans to develop workforce housing at the site failed to materialize. A total of 4.83 FTEs are attributed to these activities.

COMMERCIAL BUILDINGS

All revenue and expenses related to the Marina West (State DMV), Marina East (Marina Office), and Port Office buildings are accounted for in this department. The Port will be relocating to the Marina East building and will begin architectural work on the move as soon as notice to proceed is received from the bridge project. A \$500k reimbursement from the project is shown to assist with the relocation. A minor capital outlay placeholder is budgeted for each building. All three of these buildings operate at a loss, so the Port will see some savings when the Port Office building is removed. A total of 1.44 FTEs are attributed to this department.

AIRPORT

The airport continues to operate at a loss, but there has been a focus over the last two years to generate both positive net income and to plan for a public-facing administrative building next to WAAAM. Engineering/design (\$226k) will begin on a bank of ten T-hangars on the So. Apron. This project, heavily subsidized by federal grants, will generate \$50k gross annually once built in 2025. Though not a revenue generator, relocation of the weather observation station (AWOS) is being budgeted as well primarily from federal funds for safety concerns. In addition, private developers will likely be signing land leases for 3 to 4 new box hangars on the east side of the No. Apron. There is an effort to look for grants/donations to start design of a public administration building on the west side of the No. Apron. A total of 1.76 FTE are attributed to the Airport.

MARINA BASIN

The Marina and the Marina Green Park are included in this department. In 2010 and 2013, the Port entered into two financing agreements to finance the expansion of the Port's marina and to upgrade its electrical infrastructure with associated dock improvements. A budgeted loan payment of \$95,500 is budgeted with a remaining balance of \$190k which is to be paid off by 2028. This budget includes \$30k in capital placeholder and a \$20k grant to cover part of the capital. 4.03 FTE are attributed to the Marina and Marina Green Park.

WATERFRONT RECREATION

The Port's waterfront recreation assets are incredibly popular by both residents and visitors alike. The Port's parks include the Event Site, Hook, Spit, Nichols Basin, Waterfront Trail and Footbridge. Parks are typically a governmental function that rely on property taxes to pay for expenses. As the Port receives minimal property taxes, tolls have covered the negative net income. Capital projects on the waterfront include safety re-size of the event site dock (\$45k), marina beach signage (\$30k), event site landscaping (\$20k), event site restroom rehab (\$20k), tree replacement (\$20k), Nichols seawall pavement repair (\$100k), and footbridge deck replacement (\$95k). Most of these projects will need to find grants to complete, though the seawall and footbridge deck will be completed out of reserves. The

Port is budgeting 1.58 FTE to maintain the parks, clean restrooms, empty garbage, conduct repairs and landscaping.

In the next two years, increased paid parking, positive net income from storage units and a reduction of operational costs will need to occur to ensure that the Port can continue to manage these assets.

PARKING

Paid parking was so successful last year that it justified creating a separate asset center for tracking activity. As such, the Port is pursuing two additional parking lots on Portway next to the City Park and on W. Anchor Way behind Ryan's Juice. \$750k is budgeted for design and construction. Just over one FTE is budgeted for customer service and managing the software and user interface.

BRIDGE OPERATIONS FUND (14.08 FTEs)

The Bridge Fund is an enterprise fund that receives all of the tolls, cable crossing leases and other revenue generated from either the bridge itself or the BreezeBy proprietary software. There are two departments within this fund: the Operations Dept. and the Maintenance Dept. This fund is significantly different compared to prior years. It should be easier to track all bridge income and expenses in this single fund.

OPERATIONS DEPARTMENT

This department previously resided in the Revenue Fund and includes all costs associated with the administrative and tolling support of the bridge and BreezeBy system. Any non-reimbursable bridge replacement-related expenses are accounted through this department (\$500k). Capital Projects include customer service telephone upgrades (\$35k), WSDOT interoperability (\$75k), and speed cameras/weight monitoring (\$150k). The transfer out of this department into the General Fund accounts for the first 50-cents of the tolls. This transfer ends July 1, 2026. As an aside, the Port is pursuing a US Coast Guard rule change that would require mariners to give the Port 30-day notice on any lift request.

MAINTENANCE DEPARTMENT

This department previously resided in the Bridge Repair Fund and includes all costs associated with maintaining the old bridge. Expenses here include engineering services, repairs, flagging, and maintenance on the bridge (e.g. welding) and any capital projects. There are nine capital projects budgeted for this year (\$1.36M).

BRIDGE REPLACEMENT FUND

The Bridge Replacement Fund is a special revenue fund that received grants and appropriations for the replacement effort. The Port and the Hood River White Salmon Bridge Authority (HRWSBA or BA) executed an Intergovernmental Agreement (IGA) in March 2024 agreeing to move all contracts to the HRWSBA when possible. Currently there is \$500k left from a Washington State appropriation, \$500k from the BUILD 2020 grant, and \$2M from an ARPA grant. The grant funds that were unable to be transferred will be expended on replacement project management or engineering until spent and the fund will be shut down possibly at the end of June 2025.

BI-STATE BRIDGE REPLACEMENT FUND

The Bi-State Bridge Replacement Fund is a special revenue fund that receives a transfer from the Bridge Operations Fund equaling all the tolls raised by the September 2023 increase. The purpose of Res. No. 2023-24-01 was to capitalize reserves (\$15-20M) for federal toll bonds totaling \$75-120M. The toll adjustment was requested by the Bi-State Working Group (the precursor to the HRWSBA) and is transferred into a HRWSBA bank account on a periodic basis following the terms of the March 2024 IGA. The Finance Department anticipates \$4.4M to be accumulated this year with all of it being deposited into the HRWSBA bank account.

CONCLUSION

The resources and expenditure submitted to you are staff's recommendations based upon valuable input from your management team. As members of the budget committee, you may adjust these numbers. Once you decide on acceptable budget numbers and approve the budget, the Port Commission may not adjust these figures by more than 10% without returning for a supplemental budget.

We believe the new software and tracking systems in place will provide more transparency, allow better tools for managers, and more closely show how the Port's labor is being utilized. With a year of more complete data, next year's budget should be more insightful.

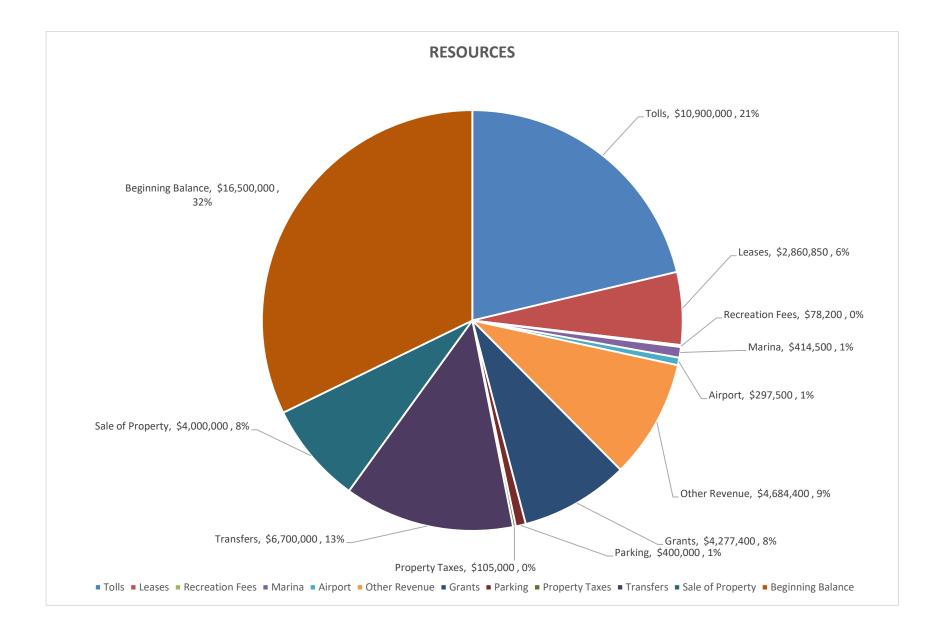

Finally, I would like to thank the Port Commission and Port Staff for being supportive during this time of significant change. The Commission has put in hundreds of volunteer hours this past year, and because of this combined effort, the Port will continue to be focused and successful.

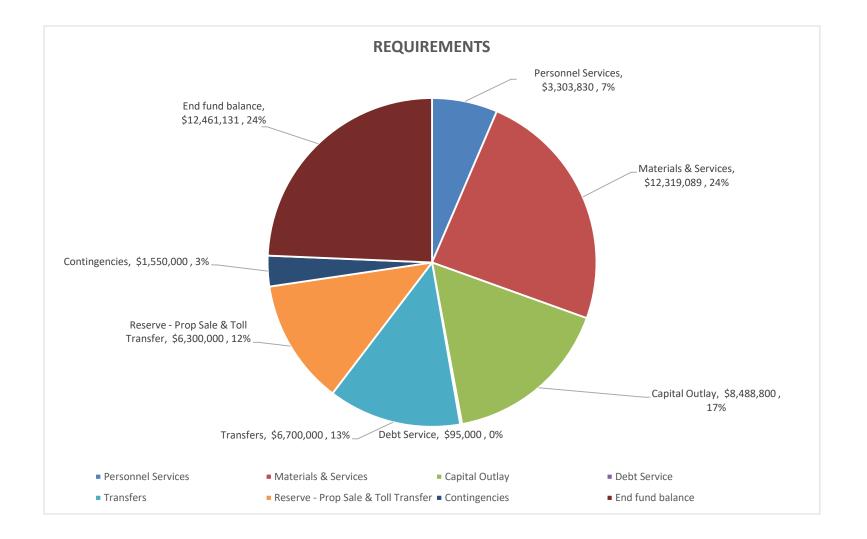

Sincerely,

Kevin M. Greenwood

Executive Director/Budget Officer

GRAPHS

BUDGET STATEMENTS

- GENERAL FUND
 - BRIDGE FUND
- BRIDGE REPLACEMENT FUND
 - BI-STATE BRIDGE FUND
 - ADMINISTRATION FUND

GENERAL FUND

The General Fund is the Port's primary operating fund. This fund accounts for the revenues and expenditures related to the Port's industrial and commercial property, both developed and undeveloped. It also accounts for the Port's marina and airport, which operate as commercial activities, along with the Port's waterfront parkland, which operates as a governmental activity.

Revenues for this fund include rental income from industrial and commercial property, grants for assessing undeveloped property, grants for the airport, along with airport hangar rental and marina moorage rentals. Property tax is included in this fund but is a small portion of the Port's overall revenue.

The only two staff directly charged to the General Fund are the Property Manager that oversees the Industrial and Commercial properties and the Airport, and the Waterfront Manager that oversees the Marina Basin, Waterfront Recreation, and Parking.

Prior to fiscal year 2024-2025, this fund was the basis of the Revenue Fund. For fiscal year 2024-2025, Bridge operations were removed from the Revenue Fund and some formerly "General Fund" activities were added to create this "new" General Fund.

^{*} Historical information is presented in these schedules for information only. Historical information for Oregon Budget Law is presented in Appendix A ** Recommended for adoption

BRIDGE FUND

The Bridge Fund accounts for all of the Toll Bridge activity, both operations and maintenance. Staff directly charged to this fund include toll booth staff and front office support staff that primarily work on bridge-related activities. All revenue in this fund is generated by the Toll Bridge.

Prior to fiscal year 2024-2025 the maintenance activities in this fund were the basis of the Bridge Repair Fund, and the Toll Bridge operations were in the former Revenue Fund. For fiscal year 2024-2025, Bridge operations were added to this fund. By creating a separate Bridge Fund with all bridge activities this allows the Port to easily see when the net toll revenues are being used to subsidize other Port activities. When the replacement bridge is built it will allow the Port to easily remove bridge activities from its accounting system by removing this fund.

^{*} Historical information is presented in these schedules for information only. Historical information for Oregon Budget Law is presented in Appendix A

^{**} Recommended for adoption

^{***} All Toll Revenue is now reported in this fund and is not split out.

^{****} A transfer to the General Fund is now budgeted to account for discretionary toll revenue (approximately 50 cents per crossing).

Note that this transfer will end after June 30, 2026.

BRIDGE REPLACEMENT FUND

The Bridge Replacement Fund accounts for what is left of the grants the Port received in its name for the replacement bridge. This fund will cease to exist when the last of the grant money is spent, which is planned for fiscal year 2024-2025.

There were no changes to this fund.

BI-STATE BRIDGE REPLACEMENT FUND

The Bi-State Bridge Fund accounts for the incremental toll revenue created by the toll increase in September 2023. The incremental toll revenue is committed for building a reserve to facilitate the Hood River White Salmon Bridge Authority obtaining a federal loan to help finance the replacement bridge.

There were no changes to this fund.

ADMINISTRATION FUND

The Administration Fund is an internal service fund that accounts for overhead. Internal service funds are recognized by the Governmental Accounting Standards Board as one way to account for and allocate overhead costs to the departments using those services. By using an internal service fund it allows overhead departments to manage their own budgets.

The Administration Fund accounts for Executive/Contracting, Communications/IT, Finance/Accounting/General Office, Human Resources/Payroll, Insurance/Risk/Safety, and Maintenance. The Executive Director is responsible for the Executive/Contracting department. The Executive Assistant and the Finance Director are responsible for Communications/IT. The Finance Director is responsible for Finance/Accounting/General Office, Human Resources/Payroll, and Insurance/Risk/Safety. The Facilities Manager is responsible for Maintenance.

This fund is new this year.

APPENDIX A HISTORY

HISTORICAL DATA PRESENTATION

As noted in the Budget Message and in notes throughout this document, the vast majority of the Port's operations have been reconfigured to allow for more logical and transparent reporting and analysis. Due to this complete transformation, comparative data based on prior years is difficult to present. For that reason, the following pages show the data as it was reported in the annual audited financial statements for historical actuals, and as it was presented for budget adoption last year.

When appropriate, historical data has been presented in the fund schedules in this document to help facilitate historical comparisons.

The changes included changing the former Revenue Fund to the General Fund and moving individual items in the former General Fund to either the new General Fund or to the new Administration Fund. The new Administration Fund allows overhead to be presented in distinct departments and then allocated to the cost/profit centers that use the services. When the Revenue Fund became the General Fund, Bridge Operations was removed from that fund and combined with Bridge Maintenance to create a standalone Bridge Fund. This allows more transparency for the use of bridge revenue, and when the new bridge opens this will allow the Port to simply remove this fund from its general ledger.

STATEMENT OF CHANGES IN ACTIVITIES and SOURCES OF FINANCING

The Port of Hood River has redesigned its funds and departments to provide better financial transparency. As part of this restructuring, an internal service fund was added to the Port. An internal service fund helps track overhead, but when taken as a whole the appropriations in the new fund will be doubled as the individual departments also show the cost of reimbursing the fund for services. Other notable items in the budget include the Bridge Replacement Fund, which still has about \$3 million in unspent grant funds. This fund will be eliminated as soon as the grants funds are expended. Personnel costs will depict a 4.21% COLA (cost of living adjustment).
